of the **YEAR**

VARIETY SPOTLIGHT

sedum
'Lime Joy' features gray-green foliage on exceptionally vigorous plants. By mid-July domed lime green buds resemble hydrangea. In September, flower heads swell to 6- to 8-inch packed domes of pink and magenta bicolor flowers. The strong stems grow to 15 inches tall.

coleus
Upright and slightly spreading with dense foliage, coleus 'Red Threads' is the perfect filler for containers, summer borders and mass plantings. Its feathery, burgundy-red leaves provide a soft and fluffy look. This variety is hardy to Zones 10-11.

saxifraga
Scenic saxifrage is a result of new breeding that offers a very early compact series. Two colors are available: White and Red. Both varieties present a strong mounding habit with a very long flowering window and shelf life. Scenic is an excellent season opener.
Dümmen Orange

nemesia
Escential is a new series of nemesia that comes from a collaboration with Plant Haven. The series boasts exceptional heat tolerance and focuses on unique bicolors. These compact plants are very floriferous and highly fragrant.
