BRED BY TERRA NOVA NURSERIES

HEUCHERELLA 'FIRECRACKER'

How long has it been on the market?

New for 2019

Grows to height/width

7 inches / 13 inches

Sun/shade requirements

Full sun to partial shade

USDA Zones

4-9

Habit

Dense, compact mounding

Consumer care requirements

This heucherella prefers well-drained, humus-rich soils and more moisture than the average heuchera.

Key features

Nice cut, golden foliage boldly marked with dark red splashes. The plant performs beautifully in the sun, unlike some others on the market. It's always neat with few or no flower spikes for easy maintenance, making this a standout foliage component in mixed containers or front and center of a border.

CONTAINER SUGGESTIONS: They look great in mass plantings, as accents, in containers and mixed beds or as borders.
