◀ Continued from page 42

**Anemone 'Spring Beauty'**  
(Gardenworld, Inc.)

The first-ever spring blooming, Anemone, 'Spring Beauty' grows best in moist, well-drained soil. Hot-pink blooms are held above very upright growing foliage. Hardiness: Zones 4 to 8.

**Iris versicolor 'Purple Flame'**  
(North Creek Nurseries)

'Purple Flame's' true beauty lies in the irresistible foliage, which emerges in March. Purple, flame-like fans provide an unparalleled performance of vivid coloring followed by an encore of abundant flowers. Foliage slowly transitions to a smoky green during the growing season. Hardiness: Zones 2 to 7.

**Echibeckia 'Summerina Blazing Fire'**  
(Pacific Plug and Liner)

'Blazing Fire' is fast growing, can fill larger pots with only one liner, and flowers last for many weeks without needing to be deadheaded. 'Blazing Fire' will bloom continuously from late spring through first frost. Plants have overwintered as far as Zone 6. Hardiness: Zones 7 to 9.

**Geranium 'All Summer Beauty'** (Plants Nouveau)

'All Summer Beauty' has periwinkle-blue flowers that continue all summer with multiple flushes of blooms. Foliage and flowers are more dainty and graceful, yet also more floriferous than 'Rozanne.' Hardiness: Zones 3 to 8.

**Geum 'Tempo Rose'** (Terra Nova Nurseries)

Geum 'Tempo Rose' is an early bloomer that produces a plethora of dark, rose-pink flowers on short, dark stems. It has a long bloom time, allowing pollinators to enjoy this gem for months. Hardiness: Zones 5 to 9.

**Crocsmia 'Orange Pekoe'**  
(Rijnbeek and Son Perennials – Export B.V.)

'Orange Pekoe' features a unique and superb, tri-color combination of yellow, orange, and red. It flowers from July until September. Hardiness: Zones 5 to 9.

**Sedum 'Boogie Woogie'**  
(Walters Gardens)

Sedum 'Boogie Woogie' is a fantastic summer flowering, variegated groundcover sedum. Hardiness: Zones 3 to 9.
