selective herbicide

Clear Choice is a selective herbicide for lawns that kills more than 60 broadleaf weeds right down to the root, using 85 percent less active ingredient. And gardeners can feel good about fighting insects and disease with PureSpray GREEN, an organic listed all-in-one horticultural spray oil for year-round use on flowers, fruits, vegetables, shrubs and trees. Petro-Canada Lubricants Inc. www.todayclearchoice.com 866.335.3369. **Write in 1410**

infectable insecticide

ACE-jet is a highly effective injectable insecticide that is now available in 32 states. It is a micro-injectable, broad spectrum, fast acting insecticide used for the management of insects that ravage forests, trees, landscape ornamentals and interior plantscapes.

Once ACE-jet is injected it is sealed inside the tree and it acts very quickly. ACE-jet comes in a soluble granular form to maintain maximum potency until it is ready to be mixed with water and used. Arborjet. www.arborjet.com 603.205.4030. **Write in 1411**

iron tree treats

Iron Tree Treats are formulated to alleviate yellowing or iron or other micronutrient deficiencies in trees. When tree treats are applied, trees get

the nutrition they need to help promote green leaves and recover from insect damage, and weather conditions such as

drought and freezing. Baicor. www.baicor.com 435.752.2475. **Write in 1412**

vitamins

Superhivive, with 50 vitamins and hormones, is intended to beautify and revive dead plants if there is green under the bark. It supplies many slips, in boxes, to dispense with plants, so any neglected plants may still be revived. Vitamin Institute. www.superhivive.com 323.877.5186. **Write in 1413**

organic lawn care

Actino-Iron for organic lawn care and landscaping contains powerful microbes that act as a fungicide to help prevent lawn diseases. Actino-Iron also contains more than 20 percent slow-release natural iron to cure iron deficiency and create lush, green, beautiful lawns without burning. Actino-Iron is OMRI listed for use in organic gardening and lawn care, and it can also be applied to landscape trees, shrubs and flowers. Natural Industries. www.naturalindustries.com 888.261.4731. **Write in 1414**

Green Goods

hibiscus

Like other Chiffon Rose of Sharon, Blue Chiffon is a strong-growing plant with excellent container presentation. The rich blue flowers are adorned by a lacy tuft, and bloom reliably every summer. Hardy to USDA Zone 5, it grows 8 to 12 feet tall and is best in full sun.

terrarium plant assortment

Batson's Foliage Group introduces the new 2-inch Little Bittie terrarium line. Each case ships with eight to 11 varieties, pack 88, growers choice. This mix is ideal for terrariums, fairy gardens, and other small plantings. Batson's Foliage Group. www.batsononline.com 352.735.6835. **Write in 1416**

weeping redbud

Pink Heart-breaker Weeping Redbud is a beautiful and unique weeping version of *Cercis canadensis*. Its characteristics include a weeping, vigorous growth habit, mounded canopy, a multitude of pink flowers and cold hardiness. Because of its small stature, Pink Heart-breaker makes an excellent addition to small-space gardens and landscapes. Eaton Farms. www.eatonfarms.com 610.926.1554. **Write in 1417**

garden mum

Wanda Purple is a wicked sport of Wanda loaded with beautiful bold purple flowers. This new variety displays vibrant color that has proven to stand out above other purple and lavender varieties in trials. Place in a combo with Wanda Lavender and you'll have one winning team. Syngenta Flowers, Goldfish Vegetative. www.syngentaflowersinc.com. **Write in 1418**

calibrachoa

Superbells Cherry Star calibrachoa hybrid has consistent rich cherry petals with a breeding breakthrough — bright yellow star pattern that stays stable, even in the heat. Like all Superbells, Cherry Star delivers vibrant color, heat tolerance, superior disease resistance, and large blooms that make this variety a star performer. Plants have a higher resistance to pythium, phytophthora, and thrips, and bloom earlier in the season than other market varieties. EuroAmerican Propagators. www.pweuro.com 888.323.0730. **Write in 1419**

heucherella

Heucherella 'Solar Power' has loved yellow-gold to lime-green leaves splattered with deep red. It forms a large mound of color in sun or part shade. This heucherella takes higher light levels than most yellow Heuchera or Heucherella available. 'Solar Power' attracts butterflies and is ideal in mixed beds, borders or containers. Prefers well-drained, humus rich soils. Terra Nova Nurseries. www.terranovanurseries.com 404.574.2900. **Write in 1420**

landscape disguise
