Do NOT bury the crown of the plug

Description

This sensational, new houseplant introduction is a first for the North American market via virus free tissue culture. Dramatic foliage is a deep green-black with a gossamer veil that shows on the youngest foliage. The undeniable star of the show is the flaming torch-like flower spike, thus the name 'Fuego'. Easy to grow in average greenhouse conditions, this unusual beauty can be grown with most foliage crops. A special plant the requires no special treatment.
