

# Growing Recipe

## ATHYRIUM 'URSULA'S RED'

### Approximate Finish Time From Liner

☐ = Minimum ☐ = Maximum

pH: 5.5 - 6.5

Fertilization Recommendations: 50 - 75 PPM

EC: 0.5 - 0.7

Light Levels: Shade

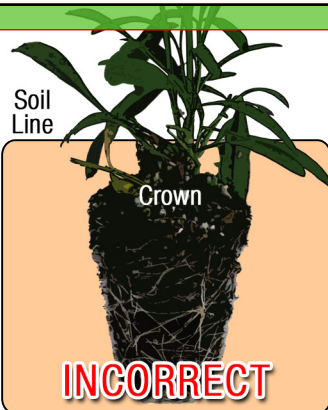

Hardiness Zones: 4 - 9

Habit: Clumping

Day Length for Flowering: Day neutral

**Water Requirements:** This plant likes humidity, so keep evenly moist. Drought can force plants into dormancy.

**Possible Problems:** Insect: Slugs might sample it  
Diseases: With poor drainage, crown and root rot could be an issue

Do NOT bury the crown of the plug

### Description

This fern heralds the spring with broad silver leaves traced and flushed with wine red down the center. This choice cultivar has a striking, upright form that adds elegance to the woodland border. Attains the best color in light to medium shade.
