Light Levels: Full sun to part shade

Water Requirements: Dry moderately between waterings

Hardiness Zones: 4 - 9

Possible Problems: Insect: Slugs

Habit: Clumping

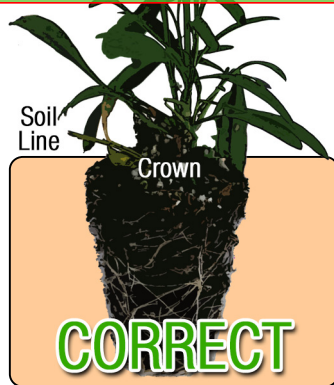

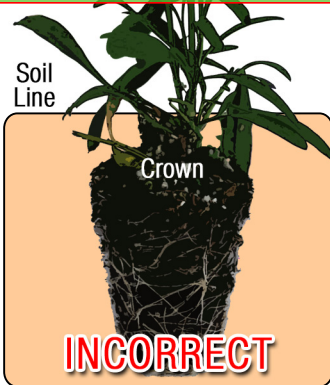

Diseases: Plants seldom experience diseases

Day Length for Flowering: Long day

## Description

Wonderfully compact habit with leaves and flowers to scale. Foliage winter color is a deep burgundy-black. Medium sized, brilliant magenta flowers in good sized clusters start to appear while the winter foliage is still dark, providing an amazing contrast to the flowers. Flowering continues as the foliage turns green again, adding to the interest of this plant. With heavy flowering and strong, bold colors this compact container friendly Bergenia will light up your outdoor garden center in early spring!
