Possible Problems: Insect: No major problems

Diseases: No major problems

Habit: Trailing mound

Day Length for Flowering: Day neutral

PGRs: Not required or recommended

Do NOT bury the crown of the plug

Description

Large, spade-shaped foliage is covered in harvest-gold, patterned with magenta and hot pink. Veins have a seer-sucker effect in the summer, adding to the overall interest of this great plant. Leaf edges are serrate and slightly lobed; dramatic and slightly masculine in nature. A massive plant for beds, borders and large containers.
