Diseases: No major issues. Rust and powdery mildew are possible.

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

Tight, attractive mound of clear green foliage looks tidy in the garden all season long. Summer and fall blooming with an abundance of unique and striking blooms. Each flower has a light, clean yellow center radiating out towards a gorgeous lilac edge that only deepens color with age. Creates an overall pop of warm, incandescent color. Hardy breeding with increased mildew resistance creates a long-lasting favorite for a sunny garden. Favorite of bees and other pollinators. Use in mixed beds and borders, as a mass planting, an accent, or in a container.
