Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

This plant ticked all the boxes for a number of visitors to our field trials. This mid-border to background Echinacea made us all look twice. The added height, perfect stem and flower placement made it look like a living bouquet! Plus the unusual Pomegranate color makes it a show stopper. We are happy to have another height range to offer our gardening friends... not everything should be knee high in a garden!
