

Growing Recipe

ECHINACEA 'FERRIS WHEEL'

Approximate Finish Time From Liner

□ = Minimum □ = Maximum

pH: 5.8 - 7.3

Fertilization Recommendations: 75 - 100 PPM

EC: 0.7

Light Levels: Full sun

Water Requirements: Dry moderately between waterings

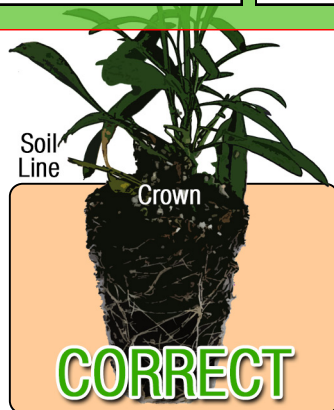

Hardiness Zones: 4 - 10

Possible Problems: Insect: Watch for aphids, mites, thrips, whitefly and slugs

Habit: Clumping

Diseases: The plants can have leaf spot and crown rot if kept too moist

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

Like its cousin, 'Quills and Thrills', 'Ferris Wheel' has a strong, wagon wheel petal pattern, but is just a shade shorter. Emerging pale cream, the flowers, as they age get a bright lemon colored lip. 'Ferris Wheel' features a stout, multi-crowned habit, and a very high flower count. Outstanding in the garden or mixed container.
