Diseases: The plants can have leaf spot and crown rot if kept too moist

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

## Description

This little baby is just heavenly with a profuse collection of fragrant white flowers over a dwarf plant. Flowers are proportional to the foliage and this one makes a great mixer in containers or en masse in the border. 'Little Angel' shows her white wings for an extended period and even reblooms. A feature in our compact series.
