Possible Problems: Insect: Watch for aphids, mites, thrips, whitefly and slugs

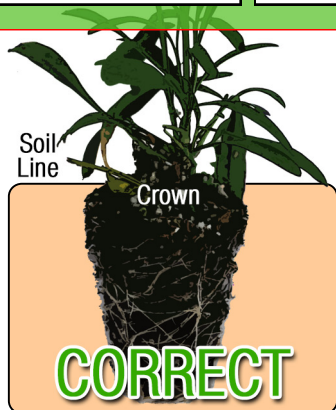

Habit: Clumping

Diseases: The plants can have leaf spot and crown rot if kept too moist

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

## Description

Exquisite double pink anemone-like flowers are held in an upright compact habit. Great branching produces multiple stems of bloom, which can be used for small bouquets. These are the perfect plants for the middle of the border and no staking will be necessary due to the strong stems. Great vigor and bloom power.
