Possible Problems: Insect: Watch for aphids, mites, thrips, whitefly and slugs
Diseases: The plants can have leaf spot and crown rot if kept too moist

Habit: Clumping

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

These rare double yellow anemone-shaped coneflowers are ideal to send "shooting through space"... well, at least in your borders! Equally at home in containers, the METEOR™ Series flowers are blooming machines with excellent habit and well-branched structure. Multiple crowns assures bigger and fuller plants for years to come.
