

Growing Recipe

ECHINACEA 'SUNBIRD'

Approximate Finish Time From Liner

☐ = Minimum ☐ = Maximum

pH: 5.8 - 7.3

Fertilization Recommendations: 75 - 100 PPM

EC: 0.7

Light Levels: Full sun

Water Requirements: Dry moderately between waterings

Hardiness Zones: 4 - 10

Possible Problems: Insect: Watch for aphids, mites, thrips, whitefly and slugs

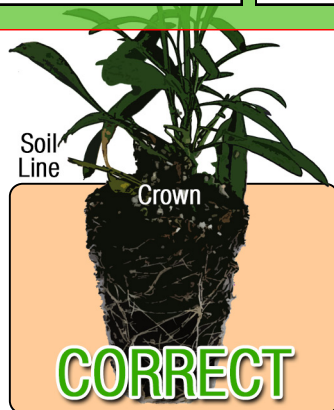

Habit: Clumping

Diseases: The plants can have leaf spot and crown rot if kept too moist

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

Like 'Firebird' - with the same wonderful habit, compact size, and charm but with gold shuttlecock-shaped flowers instead of red. The flowers have an unusually long life span and hold their color until the end of the bloom cycle. Lots of repeat bloom too!
