Hardiness Zones: 4 - 9

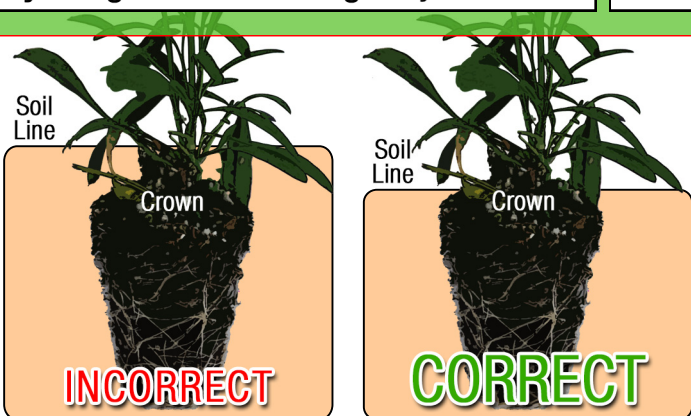

Possible Problems: Insect: Aphid or whitefly are possible
Diseases: Botrytis or mildews are possible

Habit: Compact mound

Day Length for Flowering: Day neutral

Description

Reblooms all summer here in Oregon. Airy, semi-double, peach flowers in abundance cover this fresh, easy to grow perennial. Amazingly green leaves with a compact habit make it perfect in a pot or in a border.

Do NOT bury the crown of the plug
