Hardiness Zones: 6 - 9

Possible Problems: Insect: No major pests

Diseases: No major diseases

Habit: Clumping

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

Another great addition to the POCO™ Series of Kniphofia. Flowers spikes sit just over the stiffly upright foliage. Looks neat, even without flowers. Flowers all summer long with spikes of butterscotch yellow, coral orange and red, constantly changing, like a sunrise. Easy to grow and drought tolerant when established.
