Water Requirements: Dry moderately between waterings

Hardiness Zones: 6 - 9

Possible Problems: Insect: No major pests

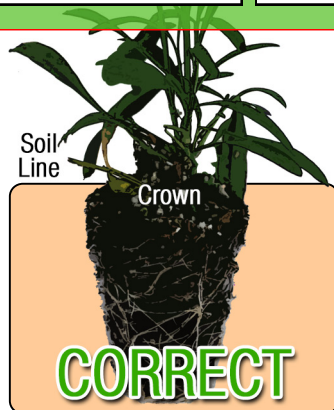

Diseases: No major diseases

Habit: Clumping

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

The color intensity on this dwarf red hot poker it out of this world! Each conical flower is a fiery deep red orange shifting to a golden afterburn. Blooms are held tight within and above upright grass like foliage. Blooms summer through frost with new flowers pushing up through the foliage non-stop. Incredible impact in the front of a bed, border or as the 'thriller' element in mixes.
