Hardiness Zones: 4 - 8

Possible Problems: Insect: Watch for snails and slugs on new growth

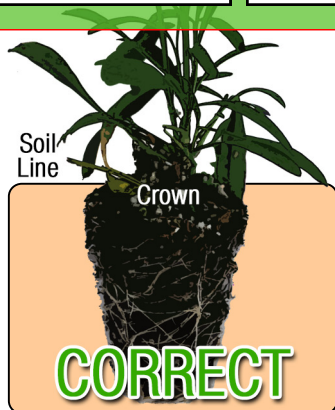

Habit: Clumping

Diseases: No major diseases

Day Length for Flowering: --

Do NOT bury the crown of the plug

## Description

A small garden-sized version of this gorgeous foliage plant with "dragon fire" leaves. Northern California plantsman, Lichen, describes this gem as having a "darkly elegant" look. Showy black-stemmed scepters of fringed yellow blooms are in perfect scale to the plant. Captivating in a group or as a small accent in a container. Looks exotic and tropical; yet is undemanding. Thrives in a moist location.
