Hardiness Zones: 10 - 11

Possible Problems: Insect: Spider mites, aphids, mealy bugs are possible

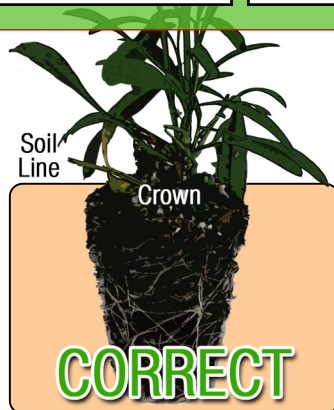

Habit: Upright

Diseases: Wilt is possible

Day Length for Flowering: Long Day

Do NOT bury the crown of the plug

Description

Exotic and lush, with spectacular blue-green leaves mottled with a deep blood-red. Large, heavy clusters of yellow flowers with red-purple bracts in the summer, that may bear small, sweet bananas. Good in containers; useful near pools. An herbaceous perennial for tropical landscapes and patios.
