Hardiness Zones: 7 - 9

Possible Problems: Insect: No major problems

Diseases: Crown rot if over watered or over mulched

Habit: Upright

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

Red, re-blooming flower spikes and an upright habit make this Penstemon worth growing. Reblooms all summer into fall. Glossy green leaves look healthy all season. Use in the mid border for a great color accent. Loved by hummingbirds and bees.
