Light Levels: Shade to part shade

Water Requirements: Dry moderately between waterings

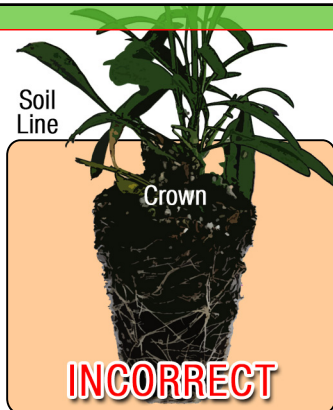

Hardiness Zones: 9 - 11

Possible Problems: Insect: None

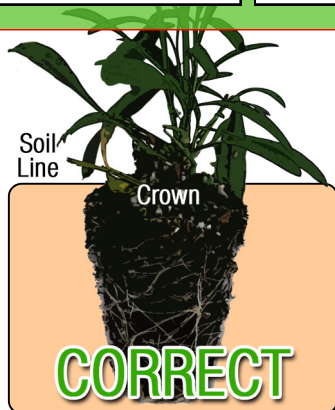

Diseases: Pythium, Rhizoctonia and Botrytis

Habit: Shrubby

Day Length for Flowering: Short day

Do NOT bury the crown of the plug

Description

After a 5 year breeding project, here's a notable improvement over 'Mona Lavender' with dramatically larger flowers and better habit. Plush, velvety foliage is deep mallard-green with a vibrant purple back. Huge flower spikes are twice the size of Mona Lavender. Spikes emerge in large numbers and create an amazing floral effect that lasts for months. 'Velvet Elvis' has thick leaves that resist foliage diseases so they look great year-round.
