Hardiness Zones: 6 - 9	Possible Problems: <u>Insect</u> : None <u>Diseases</u> : None	
Habit: Upright, clumping		
Day Length for Flowering: Day neutral		

Do NOT bury the crown of the plug

Description

Dense, upright growth that stays compact, with magnificent ram's head cresting. This small evergreen has an attractive, congested and layered appearance. It grows well even in dry shade and lime soils (once established).
