Diseases: Botrytis can be a problem if the foliage is kept too moist. Leaf spot.

Habit: Clumping

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

## Description

Brilliantly contrasting foliage and one of the best track records of all of our Pulmonaria in the hot summers of the Midwest and South. Large pink flowers fade to blue over mildew-resistant foliage. Nice mounding habit. The wavy, spear shaped leaves are dark green, infused with melting silver.
