Hardiness Zones: 6 - 9

Possible Problems: Insect: Spider mites

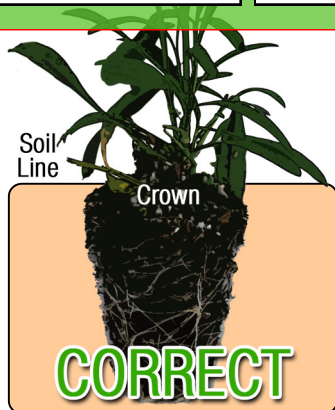

Habit: Clumping, rhizomatous

Diseases: No major diseases

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

Here's a tropical appearing accent plant from the land of the Yeti! In mid summer, this hardy ginger has pink flowers that resemble orchids with a crepe-ruffle. Showy thick, deep red stems support luscious dark leaves with deep red backs. It makes a unusual woodland companion for Trilliums or used as a container specimen.
