Hardiness Zones: 4 - 9

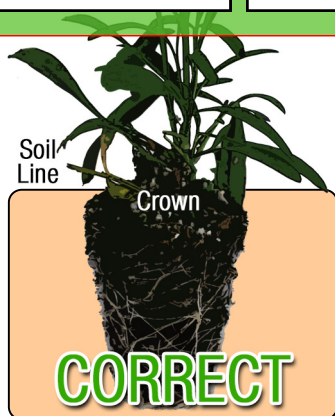

Possible Problems: Insect: Aphids are possible
Diseases: Fungal problems can occur if provided poor drainage

Habit: Clumping

Day Length for Flowering: Obligate long day

Do NOT bury the crown of the plug

Description

Multiple crowns of upright foliage are painted in purple, black, green and gray. With the summer sun, they turn to a velvety purple black. This compact grower fills a gallon pot quickly, which reflects the TERRA NOVA® breeding model, improving the overall habit of the genus. Warm-pink flowers top the plant in mid-July. Find out why some of the world's largest nurseries are replacing all their old Sedums with TERRA NOVA®'s varieties.
