Hardiness Zones: 4 - 9

Possible Problems: Insect: Aphids are possible  
Diseases: Fungal problems can occur if provided poor drainage

Habit: Clumping

Day Length for Flowering: Obligate long day

Do NOT bury the crown of the plug

## Description

Strong upright stems are covered in multicolored foliage and topped with lovely peach, coral and cream flowers in late summer. Foliage color shift from green and purple to warm burgundy tones during flowering. Short, compact habit keeps this plant from opening up over the years. A champion pollinator attractor also!
