Water Requirements: Dry slightly between waterings

Hardiness Zones: 5 - 9

Possible Problems: Insect: None known

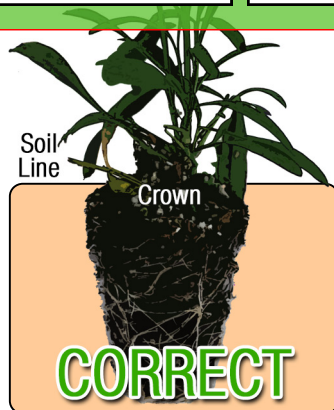

Diseases: No major problems

Habit: Clumping

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

A lovely woodland and shade container perennial with foliage like an Epimedium. Leaflets colored olive, tan, and copper to red-brown are held on wiry stems; each with a central silver star. Tufts of lavender flowers float over the foliage spring through summer. Darker and more splashed than other *T. ichangense* on the market. An exciting perennial for some enchanted evening.
