Hardiness Zones: 4 - 9

Possible Problems: Insect: Root weevil in the garden

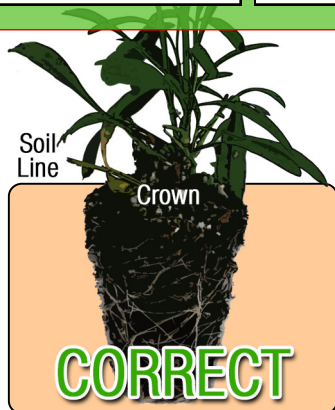

Habit: Low trailer

Diseases: Can be affected by root rots if soil is kept too wet

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

Vigorous and beautifully marked, our 'Cascade Creeper' was bred using a native Tiarella and our best-marked, cut leaf variety. The medium large leaves are deeply lobed and have a dark brown filling the center of the leaf. White flowers show in spring and sporadically until fall. Use under trees in moist or dry shade as a groundcover.
